

**PRESENTATION OF THE AGENDA OF THE GENERAL MEETINGS OF THE
PERIOD 2014-2020**

*Esteemed religious brothers in our joint responsibility to accompany and steward the Camillian Order:
health and peace!*

After meeting over the last year a notable number of religious and communities of the Camillian geography of the world, and after receiving their doubts and perplexities, their expectations and their hopes, we here offer a general synoptic picture of the most important meetings for our Order of the six-year period 2014-2020.

Events and meetings are envisaged for sectors and areas which are very different from each other but which reflect the kaleidoscope that makes up the great organism of our Institute: ministry in its various facets (chaplains, parishes, the Camillian Task Force); formation and the animation of vocations; the offering of skills in order to be animators in the world of health and illness (the *Camillianum*, universities of a Camillian character, centres for formation and pastoral care...); the administration of the possessions of the Order in line with transparency and homogeneity; the meeting between the major Superiors and the general government of the Order; and the calling of Provincial Chapters or the General Chapter (in May 2020).

These are meetings that seek to strengthen dialogue, projects and a verifying of the implementation of the leading coordinates of the *Camillian Project* at a local, Provincial and international level; to foster encounter between our religious; and, last but not least, to allow the organisation of the agendas of everyone so that they are able take part in the best way possible in these appointments for the growth of the Order.

With our very best wishes in the Lord!

Rome, 14 October 2015

*Fr. Leocir Pessini
and our religious brothers the
members of the General Consulta*
